PROFESSIONAL EXPERIENCE

IT Support Specialist | Mahardhika (Jakarta, Indonesia) **January 2025 — August 2026**

- **Workflow Automation:** Designed and executed system automation scripts for routine IT operations, successfully reducing manual processing time by 25%.
- **Technical Support & Troubleshooting:** Resolved Level 1 & Level 2 technical incidents involving network systems, hardware, internal applications, and MySQL databases with a 95%+ ticket resolution rate.
- **IT Architecture Documentation:** Created workflow diagrams and system architecture maps using Draw.io to accelerate incident handling and internal compliance audits.
- **Internal Web Development:** Collaborated with cross-functional development teams on maintenance, bug fixing, and UI enhancements for internal company web applications built with PHP and JavaScript.

Junior Front-End Developer & IT Project Assistant | Freelance / Project-Based (South Tangerang, Indonesia) **2022 — 2024**

- **Responsive Web Development:** Engineered interactive web user interfaces using HTML5, CSS3, JavaScript, and PHP with full cross-device and cross-browser responsiveness.
- **Database Schema & Query Optimization:** Structured MySQL database tables and optimized queries to ensure high data retrieval speeds and system efficiency.
- **System Modeling (UML):** Authored Use Case Diagrams, Data Flow Diagrams (DFD), and Activity Diagrams via Draw.io as technical reference guides for project implementation.

Store Keeper & Service Operations Specialist | REZA FOOD CO. LTD (McDonald's KSA) (Saudi Arabia (KSA)) **June 2013 — June 2017**

- **Cashier Transaction Management:** Executed high-volume daily POS cashier transactions with 100% financial accuracy (Zero Variance).
- **Up-Selling Strategy:** Proactively executed product up-selling and add-on promotional techniques, consistently boosting daily average check values.
- **Quality & Food Safety Standards:** Enforced HACCP food safety guidelines and FIFO (First In, First Out) inventory rotation methods to preserve quality and minimize store waste.
- **Multicultural Communication:** Communicated in English with international team members and customers in a high-pressure, fast-paced service environment.

Store Keeper & POS Cashier | PT Indomarco Prismatama Tbk (Indomaret) (Tangerang, Indonesia) **February 2012 — February 2013**

- **Inventory Audit & Stock Management:** Conducted routine physical stock audits with 100% accuracy against system inventory, substantially reducing stock shrinkage.
- **POS System Operations:** Processed cash and non-cash customer transactions efficiently while maintaining merchandising layouts according to Planogram specifications.
